Idalia Lazo Bautista, Global Ventures Program Manager
Jacki Wales, Operations Manager

CC: George Pincus, Esq., General Counsel

From: Andrew Duffell, MBA, President

Date: May 6, 2021

Subject: Updated Global Ventures Ongoing COVID-19 Related Guidelines

Florida Atlantic Research and Development Authority

Michael Allison, Esq. - Chair
Daniel C. Flynn, Ph.D. – Vice Chair
Bob Swindell
Michael I. Daszkal, CPA
Fred Yentz, MBA
Francis E. Salazar, D.O.
Sherry Ambrose, MPA/URP

Please ensure that all employees know NOT to come to Global Ventures if they think they have, have or have been exposed to COVID-19.

President
Andrew Duffell, MBA

Anybody who suspects they may have COVID-19 should be tested as soon as possible, and not enter the facility until they have a negative test result.

While many people have been, or are in the process of being vaccinated, we must all remain vigilant and respectful of each other's health and concerns.

Therefore, Global Ventures continue to implement the following practices, guidelines and arrangements:

General

While governmental mask mandates have been lifted, it remains the responsibility of each operator to provide for the welfare of its visitors and employees. Global Ventures will require the use of masks in communal areas.

All persons must wear a face covering when entering Global Ventures at FAU. This includes people who have been partially and fully vaccinated, in line with [CDC guidelines](#).

All persons must always keep their face covering on when moving about the facility in common areas. Each person is responsible for providing his/her own face covering.

Employees may remove their masks within their own office spaces if their supervisor agrees.

3651 FAU Boulevard, Suite 400 | Boca Raton | FL | 33431 | (561) 416-6092 | www.Research-Park.org

All persons entering Global Ventures at FAU are required to read the healthcare notice at the reception desk and at other points of entry upon entering the building every day. Any person who answers Yes to any of the questions, should NOT enter the facility and should work remotely or conduct the business he or she was entering the facility for, remotely.

Teams & individuals

Any person who is sick or exhibiting any symptoms of any flu-like illness, must stay home.

Please ask staff for the Questionnaire to send to expected visitors to avoid disappointment upon arrival if they have to answer Yes to any of the questions. Note the locations in Question 1 are periodically updated with data from the [Johns Hopkins Coronavirus Resource Center](#).

In meetings and gatherings maintain at least 6 feet between each person.

- Conference room & Planning Room capacity has been reduced to ensure social distancing is possible. Tables and chairs have been arranged to ensure a minimum of six feet between each person. **Do not** change the configuration of the conference room until further notice. This means that the capacity of the Conference Room is eight (8) and the capacity of the Planning Room is four (4) until further notice.

Wash hands frequently for at least 20 seconds using soap, including after every use of the bathroom, before and after eating or handling external materials (like packages).

Handshaking is strongly discouraged.

Each company must designate one individual to receive notifications when packages arrive at the front of the facility. Name and cellphone number will be displayed for courier to call when package arrives. Global Ventures at FAU staff will not handle or sign for these packages.

Offices & workspaces

Wipe down high touch areas (door handles, keyboards, telephones, desks) [with EPA-approved disinfectant against COVID-19](#) at least twice a day, at the beginning of the day and at lunchtime, for example. Each company is responsible for providing its own wipes and cleaning supplies for this purpose.

Do not share telephones, keyboards or other equipment among employees and guests.

Employees should have workstations appropriately spaced to ensure social distancing.

3651 FAU Boulevard, Suite 400 | Boca Raton | FL | 33431 | (561) 416-6092 | www.Research-Park.org

Where possible, leave doors open to maximize air flow.

Common Areas & Hallways

Wear a face covering when walking around in common areas (including kitchen, ping-pong & mail room) & hallways, including bathrooms.

Maintain social distance of 6 feet between each other: back-up in hallways to wider areas to pass others with requisite distance.

Each person should clean any communal area (sinks, counter tops) area after each use and wash her/his hands.

Compliance helps to ensure the health of all those who work in and visit Global Ventures. **If a person is asked to comply with one of these requirements by a staff member of the Research Park at FAU and fails to do so, that person will be asked to leave the facility.**

For detailed information and to update your own re-opening plan, please see the published [OSHA Guidance on Preparing Workplaces for COVID-19](#) and the [CDC's Reopening Guidance for Cleaning and Disinfecting Workplaces](#).
